- ltd. edition + 2 Bonus-Tracks + Videoclip

### Press commentaries:

"...DEADBORN should be over the top with their new smasher „Stigma Eternal“ in Europe, as long as you enjoy bone-chrushing death metal in the vein of Cannibal Corpse and Suffocation. A new star is rising in national death metal heaven - go on like that, guys!" Patrick Schmidt, ROCK HARD/Germany

## BIOGRAPHY:

Since the foundation of the band in 2002 DEADBORN look back to a story of success. Already their debut EP 'Decades Of Decapitation' (2004) pounded its way through the death metal underground and acclaimed nothing but great and excellent reviews leading to good and steadily growing fan base. The quality of their production, which was done by the guys themselves with producer *Christoph Brandes* at the *Iguana Studios* has reached an undoubtedly brilliant brutal level which makes them stand out from other underground releases. In 2005 already the EP was rereleased under "Sylphony Creations". Straight as hell DEADBORN manage to create the ideal mixture of raw heaviness, variable rhythmic with a flowing groove giving each song its own mark. DEADBORN not only present classical death metal but also add hardcore and metalcore elements. For their first full length album 'Stigma Eternal' (2007) the guys again chose the combination of self production and professional studio work at the Iguana Studios in Freiburg. The album produced rougher and fatter than its predecessor, the eight songs convince with perfectly combined blast-attacks, grooving riffs in connection with a murderous groove that gives the listener a hard lesson in death metal. Especially on stage Slavek Foltyn, Jan Maier and Jo Morath show their strengths when they join their front pitbull Mario Petrovic to create the DEADBORN-machinery to give the audience the full power! With Massacre Records the band finally found the perfect partner to do the final step from an insider tip to a well known act within the genre!
